Please make cheques or Postal Orders payable to "ATPH" but leave the Postal Orders UNCROSSED so that we can use them in the Post Office to pay for postage. If you wish you can also pay with English banknotes (plastic, not paper) but, please, *no coin*. Thanks.

All photos sold subject to the terms and conditions of the NA3T.

From the Office – January 28th 2024

Price increase

I suppose it was inevitable but I have had to increase the price of the photos to £1.00. This is mainly because the Post Office increased their rates just before Christmas but also because of the increase in electricity prices that are impacting the cost of controlling the humidity and temperature in the archive.

Gloss Vs Matt prints

The results of the trial for matt Vs gloss paper are an overwhelming vote for continuing with the matt. The vote was gloss 43 and matt 210 so all the printing was done on matt paper.

JEXC Digital Photos

Whilst I announced these to be included in PN149 it didn't happen so in **this** issue we are continuing with the JEXC series of digital photos, which are proving very popular. John is based in Fraserburgh and is making use of our digital uploader website to send his photos for all to share.

If you have a DSLR camera and would like to exchange your truck photos for photos from PhotoNews please call me on 01903 235167. and I will set you up so you can upload your photos by going to www.na3t.net and following the guide. If you are without access to the Internet I can arrange a loan memory card to suit your camera. whilst I copy your trucks to the computer.

Jack London truck photos

In PhotoNews 149 we reached the point where Jack retired and switched to photographing buses. In this issue I am rerunning his first truck photos to see if there is any interest as most of the current members joined ATPH after PhotoNews 62 in April 2008.

Have fun

Worthing 05/02/2024

Hi.

Cock-up time again!!!

Please replace the order form that came with your copy of PhotoNews 150 with this one.

If you have already placed your order I will process it using the order codes rather than ther Cat#s.

Sorry about that.

Best regards

Bob Hobbs
